Response to Amendment

Receipt is acknowledged of applicant's amendment filed October 3, 2005. Claims 1-18 are pending and an action on the merits is as follows.

Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the following ground of rejection.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Webb (U.S. 6,542,371).

Webb discloses a high thermal conductivity heat transfer pad comprising all of

the applicant's claimed and disclosed limitation of the instant invention (column 4, lines 12-26; lines 42-65, and column 5; lines 9-50).

Response to Arguments

Applicant's arguments filed October 3, 2005 have been fully considered but they are not persuasive.

Applicant's states, Webb fail to disclose and Applicant is unable to find a distribution of carbon fibers suspended within a matrix material.

Webb discloses the use of a distribution of carbon fibers suspended within a matrix material (column 4, lines 43-67 and column 5, lines 16-27).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
